

THE NEWSPAPER OF FIRST BATTALION PRINCESS PATRICIA'S CANADIAN LIGHT INFANTRY

VOL. 3

Nicosia 12th May 1978

No. 2

VISIT OF THE CHIEF OF DEFENCE STAFF, ADMIRAL RH FALLS CMM., CD.

Report From The Ivory Tower

Well, today marks a full month of operations for the JOC in Cyprus. We have managed to completely re-arrange the whole administrative system from filing cabinets to decisions as to where to move the dust. Quite an improvement I might say, considering we did it three times to make sure it felt like home.

Our faithful watchdog and leader Sgt Bruce Gibb, commonly known as the Chief Operations Clerk (C Ops C), has finally succumbed to the vacationing spirit and whizzed off to downtown Limassol for his 48 hr pass. I understand the scenery and excitement left him speechless — he could endure this freedom only so much and then the call to work came. When is your next 48 due, Bruce?

Another well known clerk on the scene is Pte "Swiftly" Moody. Well known for his fleet of feet, he is also known for his speed at work — just the contrast you need in a good clerk. Carry on Morris, old Father Time made it and someday so will you. Honestly speaking Morris has really moved along since his attachment to the Patricia's. Its good to be 831/031 at the same time.

The final pillar of strength to the staff is Master Corporal Stephen D Shirk III, most commonly known to the troopers as "Radar". Without his dedication and fortitude, as well as his ability for making great coffee, the place surely would feel his absence. His quick wit and great patience, with both subordinates and superiors alike, has helped to ease the great work load of the JOC staff — unlike certain other people we do work until 1600 hrs daily and then sometimes after supper too.

Well till next month take care from the men of the JOC.

OPS INFO

Well here we are still in Cyprus after two months, and we still haven't been tasked for Lebanon — some guys get all the luck.

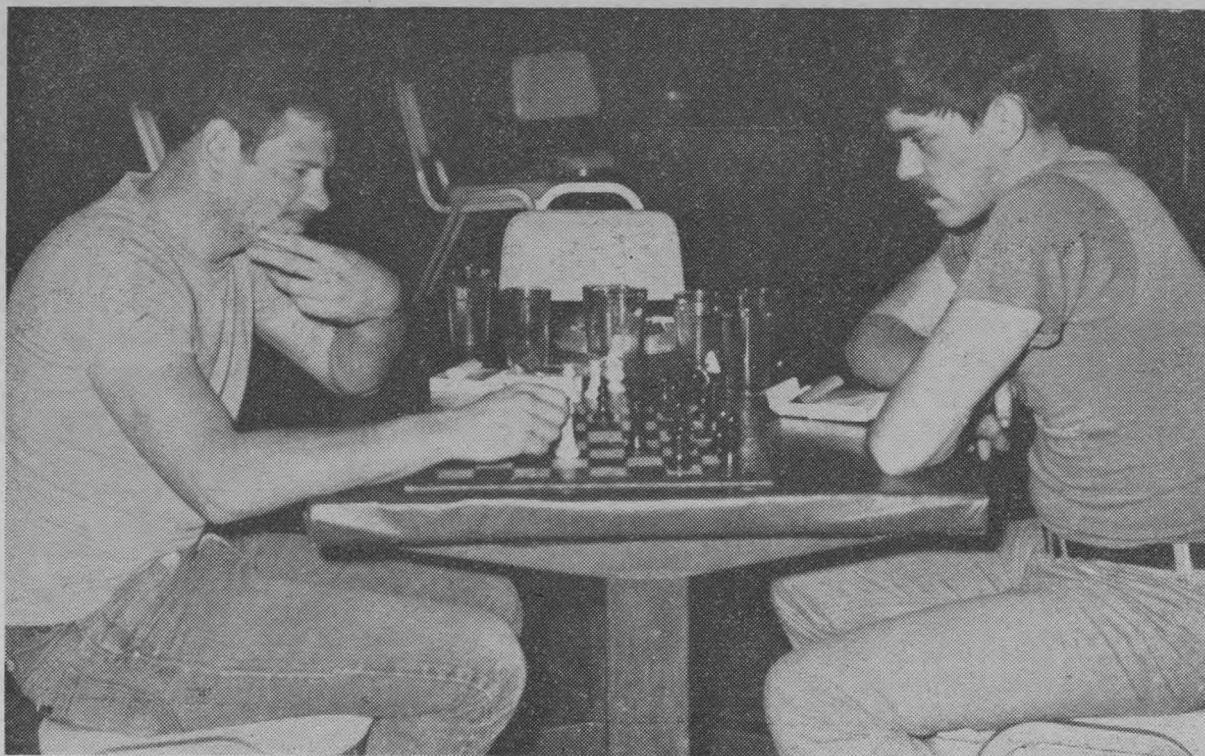

Cpl Wells, the Stirling Moss of the section (Ops B driver), continues to amaze us with his local prowess at avoiding accidents.

Cpl Polupski continues to strive diligently as our graphic artist. He now has his own cage, from which, because of the constant flow of work, we only let him out to go to the store or the ice cream truck.

MCpl Parker and MCpl Pirie have decided that the only time to go shopping is on Sundays — the stores are closed and it doesn't cost a thing. Can anyone give MCpl Pirie a good explanation as to why people would keep a rooster in an apartment downtown?

Our photographer MCpl Archer alias Allen Funt continues to be busy, but whenever we phone him at BBC he seems to be in the dark about his work.

Since the last paper we have had a promotion within the sec-

THIS IS RIDICULOUS

tion. The Ops B Officer, Captain Romses was promoted to that rank on 1 May 78.

That's it for now, so remember if you hear any good information pass it on to us — we are all cleared to RUMOUR.

BI Weekly Broadcast From Sig PI

Well good buddies its time to clamp down your headsets and hear all the Sig PI happenings.

Opening our Log at the CommCen we find some significant changes in the decor. Out with the old and in with the better conditioned old, furniture that is. In the coming weeks the CommCen Beavers will be busy with a self help project IE completely refurbishing the CommCen. We have already chosen the new color the ever popular

UN blue. Now with a little skill, will endeavor to build the much needed console for our equipment. Cpl Bill McCowan assures us that his team in the nerve center have finally mastered the dreaded Sitrep. Congrats Bill and team-keep up the fair work.

On the lighter side we have the terrifying "Rubber Snake Incident". Seems MCpl Byron Fletcher pulled a fast one on his crew by scaring the devil out of them with a piece of weather stripping. Its not fair to say they were scared but it was just shortly after that Cpl Bernie Currie tried to climb a steel pole with his Line spurs on.

MCpl Tom Wilding says his crew has no problem laying Lines, it's just getting them to the right destination that's the problem. Toms crew has been busy eliminating the Camp eye-sore, or "THE BLACK TANGLE"

as we call it, and have installed a brand new 50 pair telephone Line.

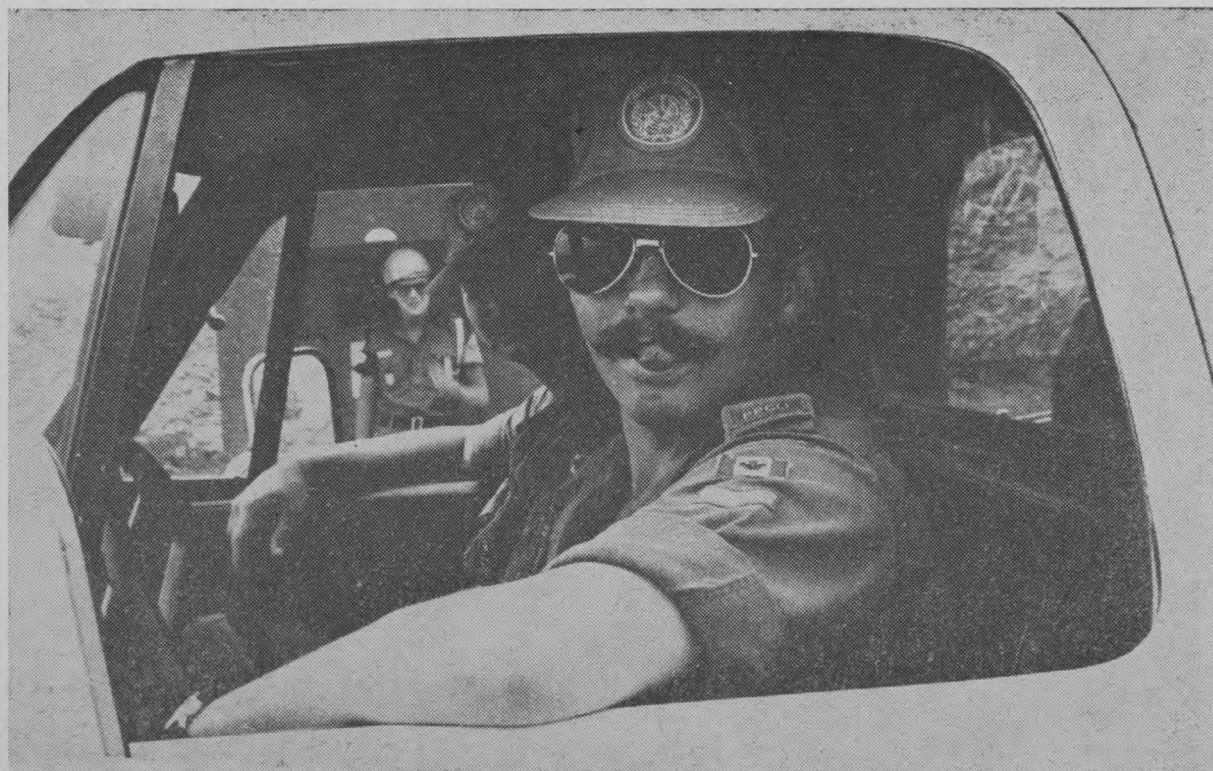

Seems MCpl John Burke and Byron Fletcher were asked for defence store requirements. It would now appear by their demands that we plan to re-do the walled city.

MCpl Gary Brown is busy practicing his "AT THE TONE THE TIME WILL BE" in anticipation of giving morning time checks at the CO'S Briefing.

Over on the SDS side Cpl Garry Keller and Pte Roger Downey are considering dropping Saturday service to keep in step of the times.

Well good buddies and fellow buzz heads it is time to close the log and send the finals.

BCNU

The same to you too (editor)

A COY SPEAKS OUT

The Champions Speak

Hello again from 1 Pl, alias "Sweathogs" now the "Champions". We've completed our first tour on OP duty and have taken over the responsibilities of reserve platoon. It was a bit strange at first to be going to bed at nights, but we all managed to adjust.

The Champs huffed and puffed their way through the First monthly mile-n-half run with little difficulty. So we thought, eh lads!! No sore muscles but the shock to our system has prompted a number of people to get on the track more often.

Between bouts of saluting anything that moves near Ledra South and GSS (general street sweeping) everyone seems to be finding a "bit" of time to spend at OP POOL. Most refreshing! The other recreational facilities are being well used too.

Everyone is now getting ready and looking forward to meeting our Colonel-in-Chief. Lady Patricia Brabourne, who should be arriving in the very near future. As everyone knows our one "Big Day of the Year" is slowly creeping up on us.

Well, that's all the news from "The Champions", see you next issue.

Fighting Second Challenge

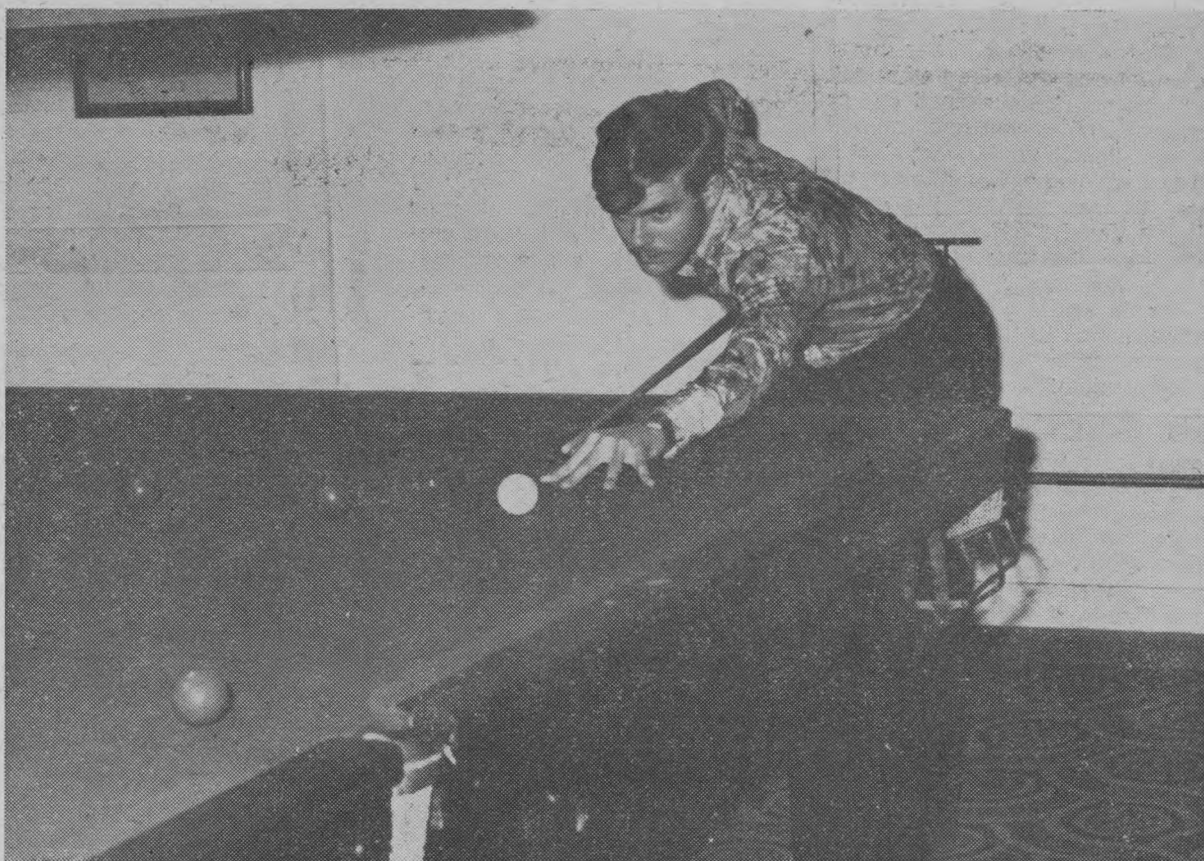

Hello, from 2 platoon A Coy. Since the last article there has been a number of changes in our day to day activities both on and off duty.

To start with 2 pl has moved out of reserve and on to the line to take over OP duties. This rotation will be done every two weeks on a regular basis so that the monotony of sitting in one place for six months won't occur.

The coy sports program should be getting under way shortly and 2 pl will supply a good bunch of "Jocks" to bolster the "Big Red Machines".

On the off-duty side the Tour to Limassol was a success and the proposed tour to the Carlsberg Brewery should prove to be interesting.

As you can see they're keeping us pretty busy both on and off duty. So till next week, so long from "Number 2".

FOUR BANKS OFF THE BLUE IN THE CORNER

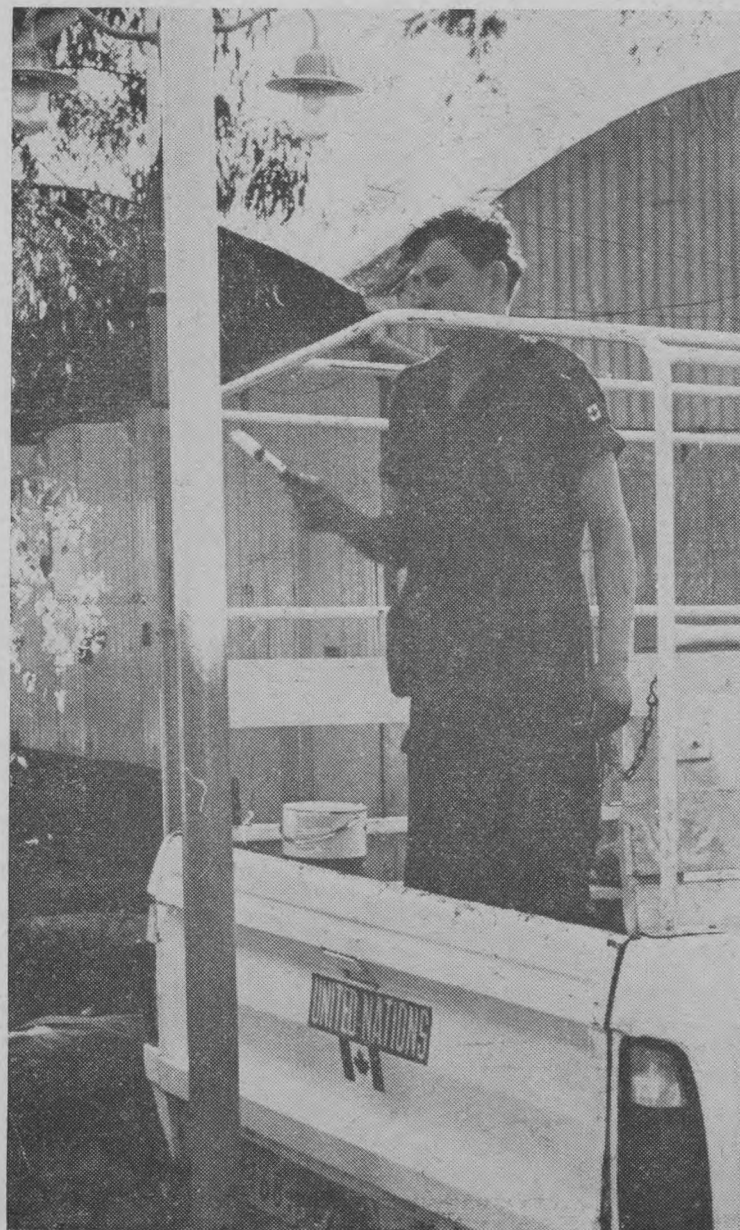

THREE ON THE GO

Just as we, the brilliant scholars of 3 pl mastered our briefings and OP routines at Mojave, Orchard and Irish Bridge they moved us into the other area of A Coy's responsibility. So we packed our bags and began to observe from OPs Bastion, Omorphita and the dizzying heights of Maple 1.

The most popular OP on the line is still OP Pool which has not seen much use lately due to the UNUSUAL Cypriot Rain. However the likes of "Flipper" Freistatter and "Dolphin" Dobson should see more action in the future.

During the recent visit of the CDS, 3 pl impressed the Admiral with our knowledge of the OPs and the job that goes with it. One member of the platoon was heard to comment that the parking lot at Mojave looked like a "snow covered area" with 10 white jeeps and a lynx as a ground blanket. The silver tongue award went to Pte "Bullsh—t" Bradley for giving the best briefing.

3 pl is in the process of beating their bodies into conditions for upcoming 1½ mile run. The only complaint comes from "Rabbit" Regher who says there's no competition from the sister platoons in Big Red. Well, the answer to that is "Somebody has to be First". So long.

PAINT BY NUMBERS 123 - 1

PADRES CORNER

Tired of the routine of your day! Tired of Regina Street? Are you bored? Boredom is probably one of the greatest dangers to mental and physical well being that can be experienced anywhere. Generally, boredom may be described as a lack of interest in surroundings or people. When you find yourself in the "can't be bothered" stage, then, you're bored and you had better do something about it. It can be dangerous. You may find that you just what of "bend the elbow" and drink yourself into oblivion. Your personal habits become sloppy and you become careless and non-observant. Depending on your job, this can cause accidents. You begin to feel too lazy to even write home — which causes uncertainty in your loved ones. They begin to think that something is wrong. As you become more and more depressed, your negative attitude affects the morale of people around you and you can cause them to get

into a "slump". When you realize you're bored, then you must make a positive effort to pull out of it. You must 'work' yourself out of it.

How do I combat boredom? There are a number of ways; for example, A) Sharpen 'old skills'. Are you a model builder? Chess Player? Train yourself to be observant of your surroundings, of people. Check yourself to see if you can give physical descriptions of people or things you have just passed. Refresh your memory by reviewing your procedure manuals, etc, etc.

B) Join groups, be it for competitions or hobby; for example, sports activities, card games, get a group together to go out and sample local foods in 'real' local restaurants.

C) Develop a new interest. Study the history of Cyprus, visit the historical sites with an organized tour or with a guide book. Check with the Welfare Office at BBC to see what facilities might be available to us from other UN forces.

D) Take advantage of local entertainment which is usually posted on bulletin board; for example, band concerts, art shows etc.

E) Church related activities. Worship enables us to come together with others to consider the deeper meaning of our lives and thus, gives us an opportunity NOT to get as trapped in a narrow humdrum existence. There is now a group meeting Wednesday evenings at 1900 in the Chapel at BBC for prayer and discussions. Feel free to join us for worship on the weekends and the discussion group on Wednesdays.

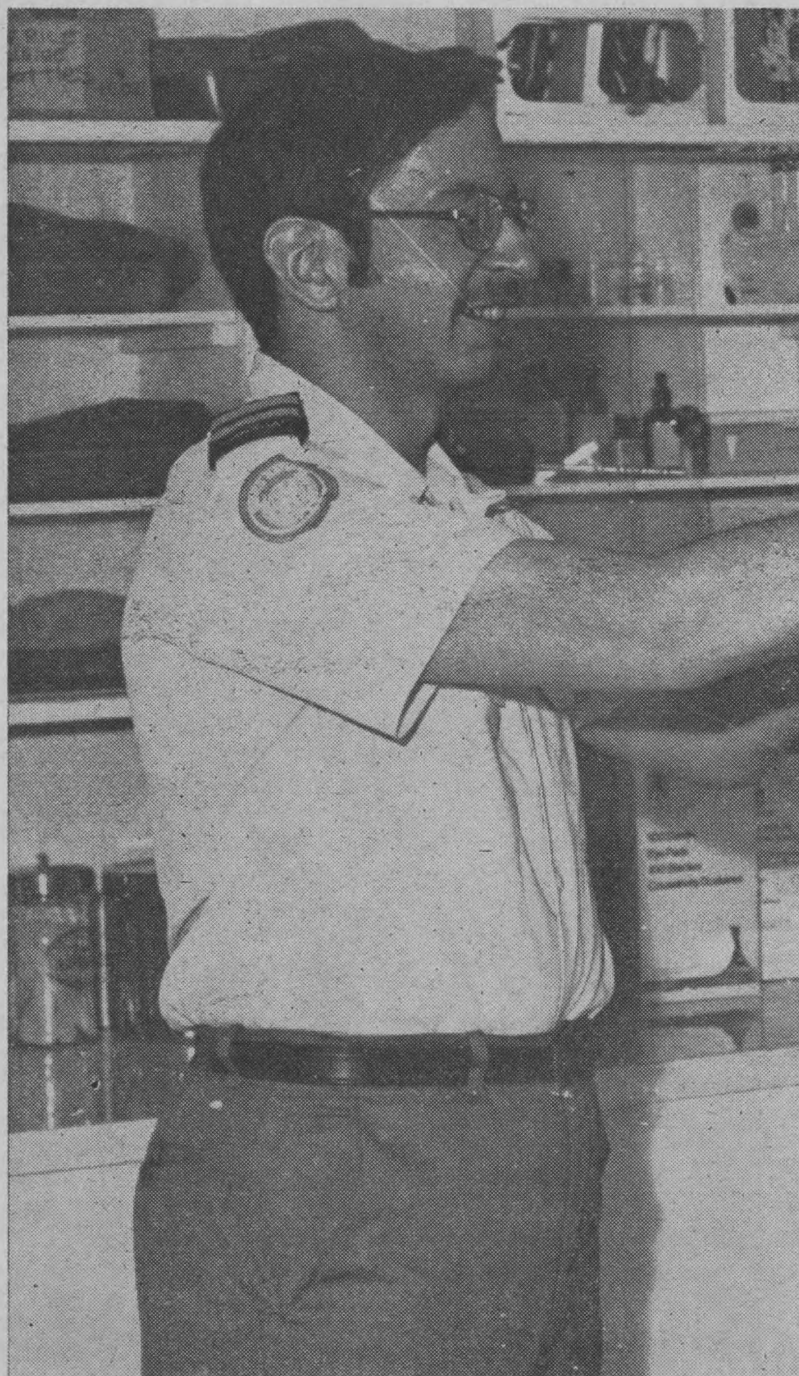

The result of attempting the above will enable us to use the time given us, productively. We will still have down days, but they will not be as frequent or severe. Our dispositions will be better, we will enjoy ourselves more, time will pass more quickly and we will have greatly enriched ourselves and have more to share with our loved ones back home.

THE HAND THAT FEEDS YOU

Since we have arrived in Cyprus, some of us a little longer than others, the cooks have been kept quite busy getting organized and oriented into the new system. Our equipment is quite different and takes a little while to adapt to such primitive operations.

We wish also to welcome to Log Coy Sgt Ray Jarbeau and Pte Imbeault both from Peta-wawa, Cpl Bergeron from BC and we hope they all enjoy the coy and the people of 1 PPCLI. Welcome aboard fellows.

As the summer progresses and gets much hotter, the Bar-B-Qs will be starting the KO and his staff will be glad to assist wherever possible. If we can make your stay any more enjoyable we will.

MCpl Quinnell is being kept busy in the butcher shop plus doing the job of Entertainment Chairman for the JRC. He is doing an excellent job in both jobs; keep up the good work Glen.

In the near future the cooks will have a Bar-B-Q and will ask for volunteers to prepare it for us (any volunteers?) just send your name to the KO.

All for now, enjoy your tour and we'll see you next time.

WELFARE SECTION

Well here we are in sunny Cyprus doing our best to keep the Battalion happy. We have already completed the first quarter of our tour and Cpl George Duffy has things running like a top. He is no longer 031 Death Tech — he is leaning towards an 831 Clerk type. At any rate he is keeping Helen (our civilian typist) on her toes. He must be doing something right — she has started to call him Mr. Duffy and Duff is calling her his secretary.

Our boss Lt Corry quit smoking last week; his own at any rate. We heard a rumour that he is being promoted shortly to Captain — trust NDHQ, they will make anyone a Captain these days. We will be looking forward to a round of free drinks at any rate.

Sgt Lewis is performing well — he is so busy that he can never be pinned down (at least we think he is working). Made a great play in the baseball game the other day, stole a base by sliding into third — a little rough on the old bod as the infield is completely gravel.

Can't forget to mention Pte Joe Gosselin — so excited about his wedding that he wants to start planning it now — hasn't anyone told him about marriage yet? Oh well I guess he will find out for himself.

Remember we are here to serve you — if you want some answers come and see us — but ensure you follow the Chain of command.

1 2 3 AND ANOTHER ONE AND . . .

RECCE RECOGNING

Hello again from Recce PI Home Station — OP Pool. This position is so vital it requires all of Recce PI to man it to prevent its loss to any encroaching forces. You should be thankful we man this OP and are continually patrolling both around and in the pool as there is some serious doubt as to whether or not you can trust the lifeguards — some thing to do with an overheard remark "Screw the troops, I'm too busy sunning to move" by one of these so called protectors of your safety. The baby white bodies of Cpl TD Brown and "Ribs" Conniff show you how seriously we take our duties in this vital area — no wasted time or lying around by this lot.

Turning to other areas of vital importance, if you ever want

to stop shaving just ask Pte "Whiskers" Whalen. It seems that whenever he uses his electric razor and after shave (hereafter referred to as LOVE POTION NUMBER (9).

9) he attracts every bee for miles around. Don't feel too bad Whalen, they could be Whiskey Dollies instead of bees.

Are you ready for this one? MCpl George is now A/Sgt — could this be significant? Maybe an A/Sgt Bubbles Rayner in the near future? Time will only tell.

Getting back to the serious part of our job, every thing is running smoothly and we are all looking forward to another 5 good months on sunny Cyprus. See ya'll next issue.

We recog that recognising the recogning of Recce, is a recognised recognition.

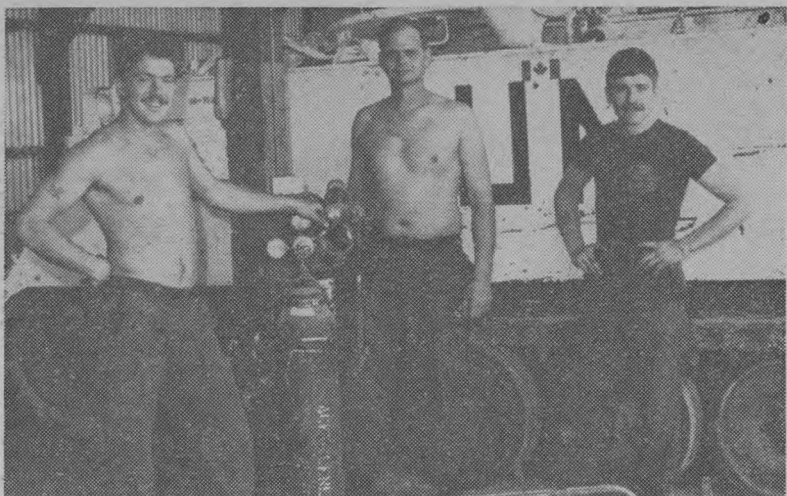

Z Z Z SO MUCH FOR SUPPER !

BIG PENNY SQUEALS

After being in Cyprus for a month, the CANCON QM of 15 personnel have adjusted, more or less, to the life of Reilly on the Island of Love. Where's the girls?

Colourful characters abound in this section, lead by Capt. Yves "Bicycle" Pelletier, whose nickname is better left unsaid. Next, is Sgt Keith "A Oblique RQ" Holstead, better known as the Geritol Kid or simply, Granddad. Sgt Keith "the Whimp" Campbell of AB Regt is still trying to figure out how to put on his pants with an anchor chained to his leg. Sgt Ted "Duty Free" Carter of 2 Svc Bn has a flourishing business in the gift shop, clothing that is. Another Carter, Sgt Eric "Short," has a booming trade in Ammo. MCpl Don "LPO" Carter of 1 Svc Bn is everyone's best friend whose office would be better situated downtown as he only shows up in QM on payday. Cpl Dick "Bam-Bam" Hillard of 1 Svc Bn is competing for the title of Mr Suntan of 1978. Cpl Glen "Mr PMC" Holman of 1 Svc Bn, is the bearer and holder of good cheer of Stalag 179, who for some reason is called Moose. Cpl Jack "the Ripper" Jackquard of 2 Svc Bn has a slight problem of doubling out in darts. Cpl Sean "Butterfingers" McVullough has a habit of tumb'ing balls, softball that is. Cpl Marc "the quiet one" Migneault, Ref Tech, is presently "draping" the CO!! A recent arrival to join our happy clan is Cpl Gordon "Long-John" Long, a man of appetite of Henry VIII proportions. Of course, I can't forget the one and only Pte George "Body-Beautiful" Martin, whose idea of fun is running with a flak jacket on to prepare for the fund raising 25-mile hike. The last but not least is myself, MCpl Dick Young, the pen pusher, who has been accused, wrongly, of being an early riser.

Recently, we lost a most colour chap — Cpl Dan "What's Happening" Sims of 1 Svc Bn, an excellent LPO representative sorely missed by us all. In addition, our RQMS, MWO Gerry "O Group" O'Hagan has to return to Canada for a brief period for personal reasons. From all of us a speedy return and best wishes to Mrs O'Hagan.

TO THE BEACH! TO THE BAR!

MAINTAINING MAINTENANCE

Hello from the Maint PI in sunny Cyprus or don't look now but you are starting to peel.

The Maint PI has been very busy during the first month in Cyprus checking out eqpt and starting regular inspection programs of all eqpt. The priorities include bicycles, projectors, TV's and outboard motors.

Now that the summer has ar-

rived at last, the numbers of pinkies running around is decreasing and most of the guys have either good tans or good burns.

WO Ron Lefebvre is doing a fine job keeping the boats afloat and the leave center in tip top shape. In May he has to come back to the shop and work like the rest of us, and Smitty will take his place at the leave center.

The boys in the weapon's

shop have been busy building saunas and repairing bicycles. The repair and rejuvenation program on the bicycles, under the direction of Pte Bob "Shadow" McNicholl is a wonder to behold and Bob has applied to remaster, to Bike Tech 401.

The Physical Fitness program starts off with a yawn each morning at 0545 hrs when we do our 2½ mile run. In the afternoon sports program, Maint PI has not yet suffered the agony of defeat. Record so far is Volleyball — 6 wins, 0 losses; Soccer 2 wins, 0 losses.

Hello to all the guys back in Calgary holding down the fort. Wish you were here. We are sure that ol' Cliff is keeping you all busy.

We'll bye for now. Heavy hammer.

REPORT FROM THE IDUST BOWL - CML, BRAVO COY

Fighting Four Pl

Number 4 platoon is in its fourth week in 'sunny' Cyprus. Everyone is working hard at improving our OPs and quarters in order to give it that special No. 4 platoon look. We still have time to play though and most of the guys have found the natives not that much different from ourselves.

We are all excited with the news that Lady Patricia and the Colonel of the Regiment are going to visit us next week.

Every morning MCpl Miller runs outside and checks to see if the flowers seeds he planted are growing. Today he was in luck! He saw sprouts. But when it was mentioned to him that they might only be weeds, he threatened to skin us alive if we pulled them out.

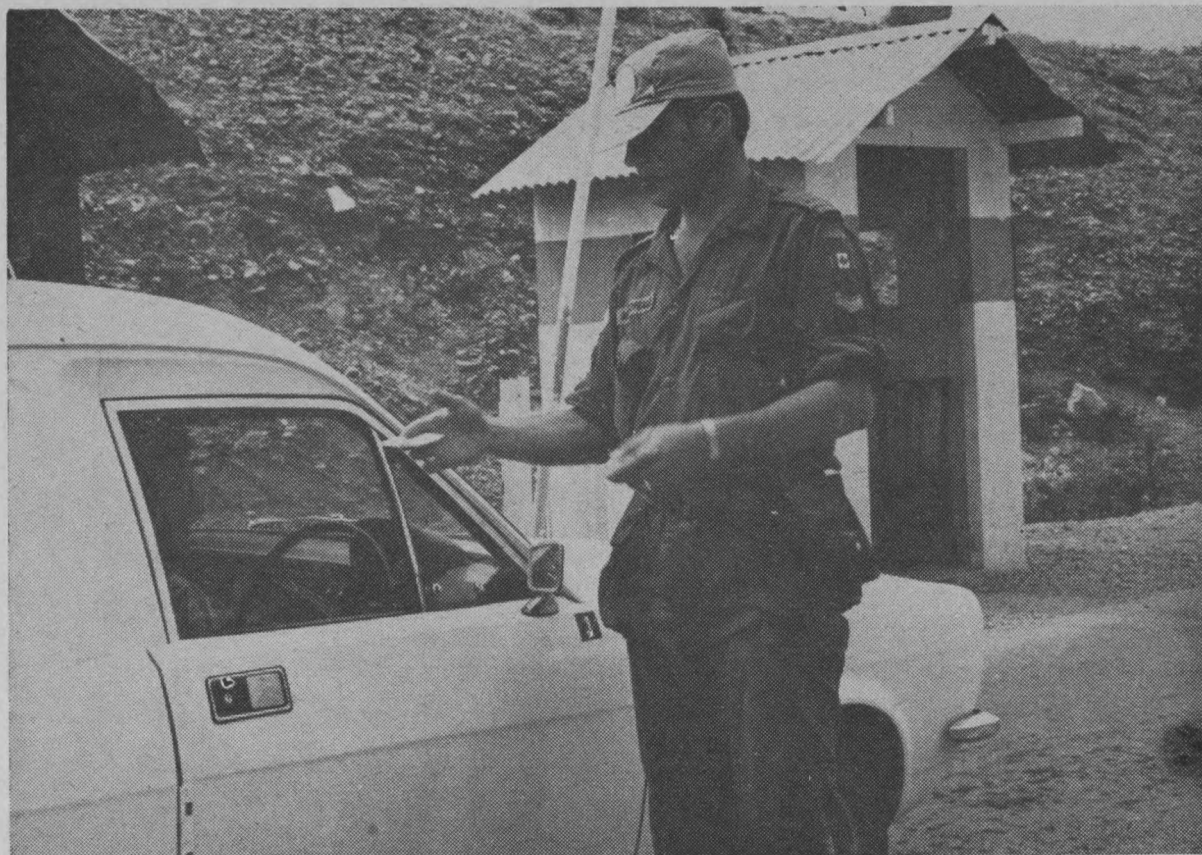

The mailman is both friend and enemy over here. If we get a letter he is our friend; if we don't — watch out! Since it takes so long to get a letter over here, MCpls McLean and Zubkowski have had it in for the mailman until they both received one letter each. Both thought they had it pretty good and were expounding upon the fact until a certain Pie informed them that he had received 19 letters so far.

We have a swimming pool a quarter of a mile down the road. It's nice but some of the boys swear that when you dive in you can see ice cubes forming on the bottom of the pool.

Three of No. 4 platoons best soccer players have teamed up with the rest of the battalion team and are taking on the Austrian Contingent in Famagusta. Game canceled as the Austrians Rotated.

Everyone in No 4 platoon has now had a 48-hr pass and have discovered the merits of spending this precious bit of spare time at the leave centre in Limassol. The two power boats with their water ski equipment should provide the tourists unending hours of laughter as the yet uninitiated water skiers try their luck.

Most of No. 4 platoon is gaining a small, if not select vocabulary of Turkish as part of their day-to-day routine at OP LIZARD. The men fortunate enough to work at OP TURKEY FARM are learning to appreciate the smell of manure that permanently permeates the air surrounding this particular OP. Of course those that work at OP ROYAL have learned to appreciate the old saying, 'Silence is Golden'. As they gaze out upon the sea of grain surrounding their OP the silence is only broken by the baaing of a sheep flock.

WHAT'S THIS?

5 Pl Mumblings

This is Cpl Strople writing on behalf of good old No. 5 platoon of B Coy. Since we have been here we have been doing a lot of spring cleaning. (eg. painting rocks and cleaning up the camp) under the watchful eye of our PI Comd, Lt Goral, and our PI 21C, WO Legge.

We started soft-ball practice last week for the upcoming season. We have games against A Coy, Log Coy, HQ Coy and we are open to any other teams who want to challenge us. Sgt Hansen is our coach and will sometimes pitch for B Coy's soft-ball team. We have our first game on May 2nd against A Coy. So I hope during that first game we get the full support of B Coy to watch the game.

Everybody in No. 5 platoon has been on their 48 hr pass and have gone to the leave centre in Limassol and stayed in the Beaver Lodge and the Beach house. The beach is right across the road from the Beach House. Everybody that went to Limassol had a good time laying on the beach, going to the cabarets and disco's

There is also a company soccer team forming up as well as other numerous clubs (photography, archery, unarmed combat and cross-country). This is Cpl Strople signing off until the next time.

SUPER SIX

Last week saw a marked improvement in the morale of the troops as mail started arriving from home. This was especially noticeable among the younger, under-25 crowd who are either not married or who have not been married a long time. The over-25 crowd, well, they sometimes seem to take a letter from home as being a financial statement. Poor guys!

Duties in the past week included a visit by the Chief of Defence Staff, which had the OP sentries racking their brains trying to memorize the briefings.

One duty that brought a subdued snicker was the recent ce-

metry escort, No. 8 section had to perform. An unlikely place for a laugh, but when the pall bearers lowering the coffin, got it stuck in the hole; not once but twice, it was hard not to chuckle. They finally realized the hole was too small for the box. After a short delay, they got the deceased covered.

This week will see us at the ranges for our C-1 classification, making marked improvements on the defensive bunkers around CML and participating in some machine gun drill. Hopefully, it won't rain all week.

Until next week, "YASOO" from CML.

TALK FROM THE MESSES

CML SR NCO'S

Well here we are on beautiful, sunny Cyprus. Arriving as we did on the 5th of April we went directly to our home — the Sr NCO's Mess to see where we would be living for the next 6 months.

When we entered the Mess we were greeted with the traditional first drink in Cyprus which, quite naturally, was enjoyed by all. After we had settled in we started to look around the Mess to see what improvements we could make to our home away from home. Improvements have been going at a good rate with all members helping on the self-help programme. A lot of time has been spent improving the outside area, as during the summer months most of the time will be spent outside.

On the entertainment side of the house Sgt Cameron has got matters well in hand, although there seems to be a lot controversy over who are the dart champions of the mess. However, we are sure this problem will be resolved at our get-together with the Ledra WO and Sgts' Mess on the 29th of April.

Until the next time, we say in closing "BBC and Ledra keep practising your DARTS".

LEDRA PALACE JRC

1 PPCLI officially took over the Ledra Jnr Ranks club on the 4th of April 1978. During this time we have had 4 Happy Hours and one night of "very interesting" movies. The operation of the club was unstable at first

FEED ME

because of the possibility of the drain an excavated fish pond club splitting up and the MCPLs finally getting away from the "5A TRASH" or visa versa the word is now final and the big move will commence on the 11th of May. We are getting the feeling that the CPLs/PTEs are not sorry to see us go, they are even volunteering to move us over. The leg work for the MCPLs Lounge is in the very capable hands of MCpl "Secret Squirrel" Duggan. Some of you might know MCpl Duggan more affectionately as "STAFF". That's all for now from the Ledra Jnr Ranks.

BEAVER BAR INPUT

There is the belief that there is nothing which is manmade that is permanent. Change is inevitable. So it is that the Officers' Mess in CML is undergoing a facelifting.

The Mess, formerly known as the 'Hideaway', has been officially christened, (in good drinking fashion) 'The BEAVER BAR'. Any true Canuck can see the apparent suitability of the name.

It is not unusual to see one CML officer spending his spare time trying to figure out how to

while another officer is busy trying to pencil and paint Mess signs.

The Mess lounge will assume a local, Cypriot atmosphere and the bar area a pub decor. Flags, bamboo matting and a concerted effort will, no doubt, soon produce the desired effect.

At the same time, our own "Harry O" is 'taking stock' of our finances and the entertainment calendar is taking on form. There is much to do and much to look forward to.

All officers of CANCON are invited to sit by our cosy fireplace and have a pint with us.

SPORTS IN CYPRUS

HQ DESTROYS LOG COY IN BASEBALL GAME

On 04 May 1978, the HQ Coy Softball Team played its first game of the season with HQ Coy winning an impressive 9—3 victory over a bewildered Log Coy. We started the first inning with Pte "Buzz" McEachern hurling ball for us. Log quickly loaded up the bases and things began to look bad for the good guys. Fortunately, the next three batters popped out with hits to the pitcher, the third baseman, and the shortstop to retire the side with three men left on base and HQ Coy sighing with relief. In the bottom of the first inning we took a two run lead with a single by MCpl "Flash" Archer and a home run to centre field by MCpl "Wheels" Hachey.

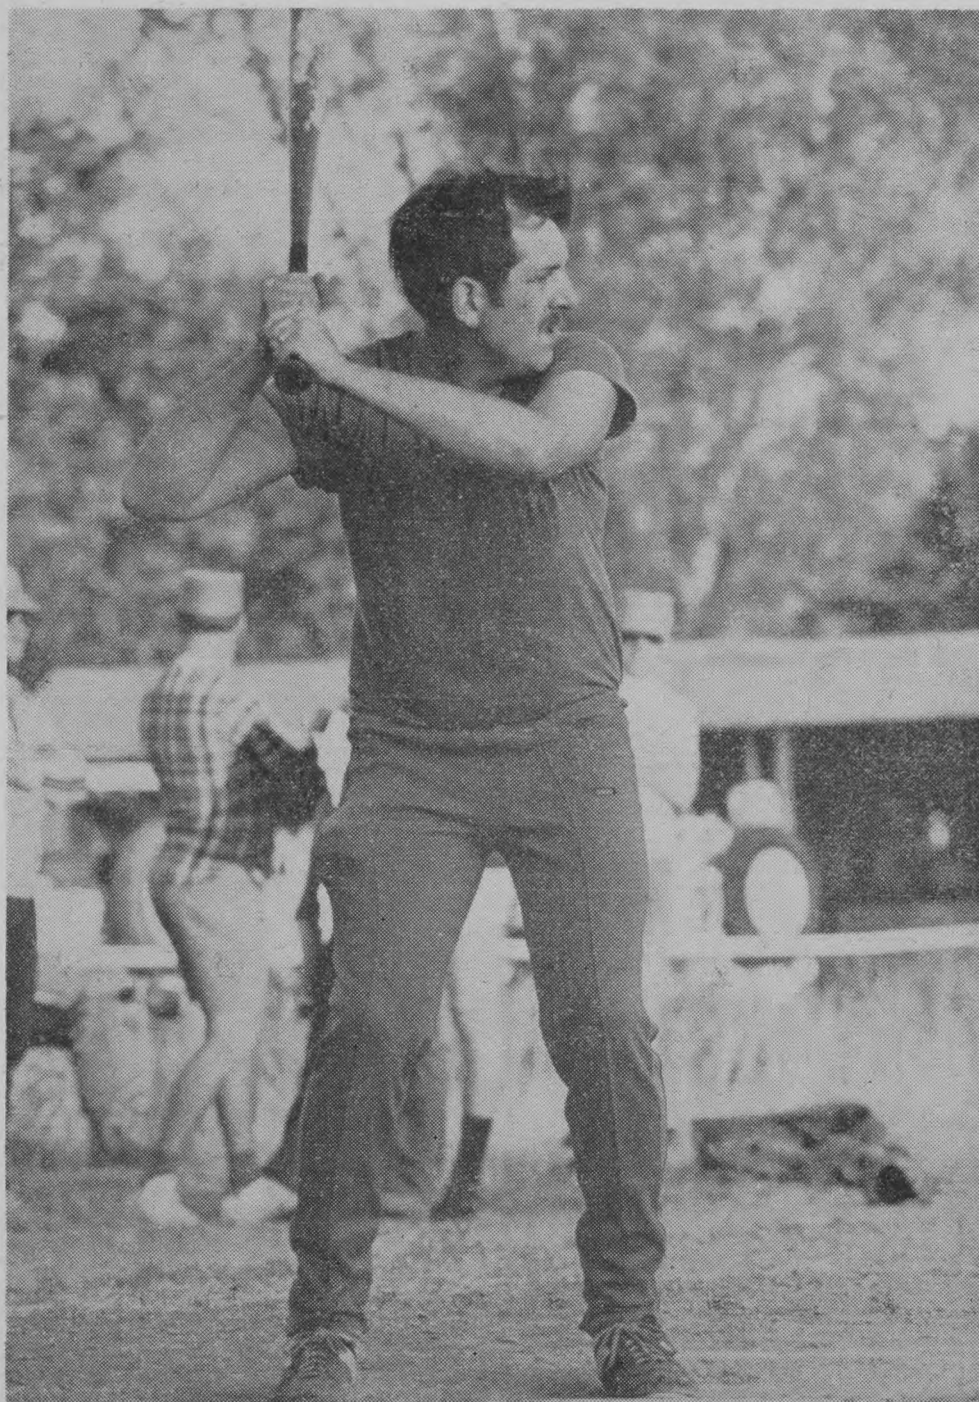

In the top of the second, Sgt "Cuffs" Carty became the hurler for HQ Coy and Log Coy went down one, two, three. The bottom of the second proved to be a very big inning for us we took a commanding 9—0 lead on singles by Lt Baker, Cpl Turner, Cpl "Toothpick" Steele, Pte "Batman" Gotuaco, and Lt "Booker" Brooks. Doubles by Cpl Polupski, Cuffs Carty, and Flash Archer, and a second big home run to centre field by Wheels Hachey.

The third inning saw Log Coy score one run and was highlighted by an excellent display on how to play ball by Booker Brooks that excited all present — he caught a fly in left field near the baseline, another line drive at shortstop, and a third fly ball in centrefield.

In the fifth inning Log Coy scored their final two runs before the game was called by the 'Ump', WO Jackson, due to darkness.

The players on the HQ Coy Team would like to thank those persons who came out and cheered us on to victory — to those who didn't make it out, we hope you will make an effort for the next game. We would also like to thank the CO, LCol MacKenzie, for finding the time to come out and cheer his team to victory.

See you on the playing field.

VISITORS:

Chief of Defence Staff

"THE OUTCOME OF THE BATTLE SIR, WAS ULTIMATELY INFLUENCED BY HANNIBAL'S TIMELY DECISION TO FORCE MARCH HIS ELEPHANTS THROUGH THE KYRENIA PASS, THERE". PTE "SILVER TONGUE" BRADLEY CAPTIVATES THE CDS WITH THE EARLY HISTORY OF OP ORCHARD.

"YES SIR. I SUPPOSE IT DOES LOOK A LOT LIKE YORKTON SASKATCHEWAN NOW THAT YOU MENTION IT." CPL BUCHANAN OF B COY. A YOUNG NCO WITH A BRIGHT FUTURE. FINDS HIMSELF IN QUIET AGREEMENT WITH THE CDS ON A POINT OF TOPOGRAPHY.

"THERE'S THE ONE LEW, HE DID IT!" THE CDS GETS HIS MAN AS HE INSPECTS THE QUARTER GUARD. LEFT TO RIGHT: MCPL SPELLEN, PTE WHALEN AND PTE MAPE OF RECCE PLATOON.

"NO SIR I WOULDN'T; THE TROUBLE WITH THE NAVY IS YOU CAN'T DIG HOLES ON SHIPS." CPL MOCKFORD OF RECCE PUTS THE CDS IN THE PICTURE.

"YES SIR, IT IS SUSPICIOUSLY QUIET; BUT AFTER ALL, IT IS TEA TIME; (GETTING A LITTLE PECKISH MYSELF). PTE CANHAM OF B COY TACTFULLY ENTERTAINS THE CDS.
